## New (Old) Software!

We say goodbye to WellnessLiving at the end of July, but are happy that we get to say hello to MyMusicStaff, a Canadian company that has created a software dedicated to helping music studios make a success of themselves! It will allow all the familiar functionality, including self-service booking and cancellations, as well as **credit card and direct deposit payments**.

Keep an eye out for instructions! We'll make sure it all goes really smoothly since we still feel bad about last year's migration fiasco
